SUICIDE PREVENTION AND AWARENESS PROGRAMME 16-09-2023

Suicide is a major public health problem with far-reaching social, emotional and economic consequences. It is estimated that there are currently more than 7,00,000 suicides per year worldwide, and we know that each suicide profoundly affects many more people. World Suicide Prevention is an awareness day observed on 10th September every year, to provide commitment and action to prevent suicides, with various activities.

The NSS unit of the college organizes a suicide prevention and awareness programme on 16th September 2023 in the Botany lab of the college. Dr A. Sudharshan-NCD Program officer Chittoor (Dist) explained about the suicide myths and facts to the students and volunteers of the college.

Myth - suicide happens without a warning

Fact - almost everyone who commits suicide has given some clue or warning- you just missed it

Myth - people who attempt suicide really want to die

Fact- rather than wanting to die, they just wanted the pain to stop. Maybe you could have helped them to stop.

Myth - people who can talk about suicide really won't do it

Fact- Talking about suicide can be a plea for help and it can be a sign in the progression towards a suicide attempt.

Myth- people who die by suicide are unwilling to seek help, they actually want to die.

Fact- more than 50% of the suicide victims try to get help before attempting suicide. Even a severely depressed person has mixed feelings about death, fluctuating between wanting to live and wanting to die.

Myth - all suicide individuals are mentally ill

Fact- most of the suicidal people are not psychotic or insane. They are upset, grief-stricken, despaired and extremely distressed.

Myth- talking about suicide may give someone the idea.

Fact- you don't give suicidal ideas to someone by talking about suicide. Rather talking openly and honestly about suicidal thoughts and feelings can save a life.

Dr P. Uday Kiran, Psychiatrist, District Mental Health Program Officer addressed the volunteers and students about "the signs and recognition of suicide behavior, prevention of suicide and how to respond quickly if a suicide attempt seems imminent (dial 14416)". L. Srivani District Epidomolgy Officer and S. Yasin Raja Psychiatric Social worker, Mental Health Program also interacted with the students. Dr. C. Meera Saheb, Vice-Principal, P.
