1. BASIC INFORMATION

VISION:

The Department of Computer Applications aims to generate groomed, technically competent and skilled intellectual professionals specifically from the rural area of Chittoor to meet the current challenges of the modern computing industry.

MISSION:

1. Providing a strong theoretical and practical background across the computer science discipline with an emphasis on software development.
2. To provide technical solutions in the field of Information Technology to the local society.
3. To provide need based quality training in the field of Information Technology.
4. Empowering the youth in rural communities with computer education.
5. To provide students with the tools to become productive, participating global citizens and life-long learners.

6. CO, PO and PSO of the Programmes

Programme Outcome's (PO)

PO 1. Students gain knowledge in the fundamentals of Commerce and Finance by the completion of B.Com Programme.

PO 2 . Students will focus on specializations and practical exposures which would equip the student to face the modern-day challenges in commerce and business.

PO 3. Students trained professionals for the Industries, Banking Sectors, Insurance Companies, Financing companies, Transport Agencies, Warehousing etc., to meet the well trained manpower requirements

PO 4. Students present different type of works in academic and professional environments.

PO 5. Students will get communication and business management skills, especially in providing technical support. Manager, Selling Manager, Over all Administration abilities of the Company.

Program Specific Outcome (PSO)

SPO 1. This programme provides Students to become computer based. Accountant in any Business organisation.

SPO 2. This programme is useful for B.Com graduates to prepare e.filing income tax schedule and also get a job in this area.

SPO 3. This programme will give subject skills within various disciplines of commerce, business, accounting, economics, and finance, auditing and marketing and get jobs in this areas

SPO 4. This programme will provide students with success in competitive exams for Pursuing professional courses CA, CS, ICWA and staff selection commission.

SPO 5. This programme is useful to students to become successful in Junior Accounts officers which only met for B.Com Graduates.

SPO 6. This programme provides jobs as programmer , soft skill developer and Computer operator.

<i>Remarks (if any) (Recommendation from Students)</i>	
<p>A deep knowledge and a practical knowledge is needed for joining any organization. So both should be given.</p> <p>All faculties are supportive</p> <p>All the coursework are properly distributed over the period of three years. I am currently in 2nd year and the coursework till now have been amazing and have helped me gain a lot of knowledge.</p> <p>All the teachers are very helpful and r doing their best to give us the best knowledge from online sessions.</p> <p>Best teaching process.</p> <p>Change the subjects in first year as they have no significance in our placements and is of no use for our future</p> <p>College should give sufficient gap between two mid semester exam and at least one study leave just before the first day of the exams.</p> <p>Course should focus more on practical knowledge.</p> <p>curriculum & syllabus is up to date.</p> <p>Education Overall is good but little in to have extra curricular activities fests and events in the college..</p> <p>I believe that all the resources and help provided is more than enough to catapult a student into a good career in the upcoming years in college.</p> <p>A course CURRICULUM should be put which will be dedicated entirely to creating projects on domains that the students want to be part of in their future.</p> <p>Interview preparation needed</p>	<ol style="list-style-type: none"> 15. Curriculum was structured and updated based on courses which will improve employability of students 2. Students were encouraged to register for certification courses 3. Technical Teaching and ICT based teaching are conducted to improve the teaching learning process 4. More focus on practical teaching is given, which included hands on lab experiments, mini projects and case study based learning 5. Industry visits and more practical based projects and applications are incorporated in the curriculum 6. Research publications have been encouraged

13. Mentor and Mentee System:

1. Purpose:

- Facilitate the personal and professional development of students within the History Department.
- Foster a supportive learning environment by connecting experienced faculty members with students seeking guidance and mentorship.

2. Implementation:

- Assign each student a mentor from the faculty based on their interests, academic goals, and career aspirations.
- Mentors will regularly meet with their mentees to provide academic advice, career guidance, and personal support.
- Encourage mentees to set goals and objectives, and mentors to assist them in achieving these goals.
- Organize regular mentorship sessions, workshops, and seminars to enhance communication and collaboration between mentors and mentees.

3. Responsibilities:

- Mentors:
 - Provide guidance and support to mentees in academic and career-related matters.
 - Share their knowledge, experience, and expertise with mentees.
 - Assist mentees in setting realistic academic and career goals.
 - Offer constructive feedback and encouragement to mentees.
 - Help mentees navigate challenges and overcome obstacles.

- Mentees:

- Actively engage with their mentor and seek advice when needed.
- Communicate their academic and career goals to their mentor.
- Be receptive to feedback and willing to implement suggestions for improvement.
- Take initiative in their own personal and professional development.
- Respect the time and commitment of their mentor.

4. Benefits:

II B.COM CA – III SEM

Department of Computer Applications Mentor- Mentee Programme Conducted at PVKN Government College, Chittoor. A mentor is an individual with expertise who can help develop the career of a mentee. A mentor often has two primary functions for the mentee. The career-related function establishes the mentor as a coach who provides advice to enhance the mentee's professional performance and development. The psychosocial function establishes the mentor as a role model and support system for the mentee.

Aims and Objectives.

1. To bridge the gap between the mentor and the mentee
2. To ensure the quality performance of the students in academics
3. To deal with the related issues for the holistic development of the students
4. To provide mutual support and a congenial learning environment.
5. To inspire and motivate for higher studies and competitive examinations
6. To discuss stress related issues
7. To regulate the academic involvement and assess the outcome
8. To discuss attendance, Exams and Internship

Action Taken Report of 2021-22

Audit report received after a comprehensive Academic Audit conducted by IQAC and based on feedback suggestions related to the curriculum from students, teachers, alumni and employers, the following actions were taken:

- All faculties were notified about the need for at least 20% of revision and to prepare justification reports on quality enhancement issues regarding the syllabus.
- They were also encouraged to enrich the curriculum with reference to program-specific outcomes and course outcomes and to check on the attainment of course outcomes.
- All the Courses in both UG and PG programmes have been revised and the revised syllabus with 21-Regulations has been notified to students and placed on the College website..
- Faculties were encouraged to adopt more innovative teaching techniques, like seminar presentations with weightage of marks as internal assessment and blended mode of learning were practised.
- Incorporation and mapping of Blooms Taxonomy with course outcomes and their attainment with program outcomes was practised.
- Skill-based activities like the promotion of internships were initiated and project-based learning was incorporated into the curriculum.
- Skill-based activities like project-based learning were incorporated into the curriculum.
- Collaborative initiatives under MOU for technical knowledge transfer have been started.
