

PVKN GOVT DEGREE COLLEGE (A), CHITTOOR

DEPARTMENT OF ZOOLOGY

BEST PRACTICE

The Department of zoology has adopted 3 best practices in the department for the benefit of student community and elevating their knowledge to the real world

BEST PRACTICE-1

PEER TEACHING

Department of zoology ad adopted peer teaching as best practices since 2020-21 still now. In this peer teaching practice whenever, the teachers are not available i.e., on duty or on leave then the senior students are encourage to teach their junior students in the place of teachers who are on the leave or on OD.

BEST PRACTICE-2

BLOOD GROUP TEST

The department of zoology adopted Blood group test as best practice in the department to know the students their blood groups. This is very use full to the student community because as and when it is necessary like incidents and accidents and in case of blood transmission

BEST PRACTICE-3

Water analysis

The Department of Zoology adopted water analysis as best practice in the department to know the students about their drinking water PH values. Now a days variation in PH value in the water pupil are facing different health issues. Water with acidic nature brings about different health issues whereas water with alkali nature brings about good health so it is very important to the students to know about the drinking water PH values. That's why we adapted water analysis test as a best practice.
