Scope of Work

Under this Agreement, the following cloud based ERP Software and Services shall be provided:

1. In 2015, customized ERP modules, including Student Management and User Authentication modules are initiated on on-premises.
2. In 2016, Library Management software modules which were initiated on on-premises..
3. In 2018, Examination Branch Automation module which were initiated, on premises.
4. In July 2019, the college officials made the decision to migrate all on-premises applications to a renowned cloud vendor, such as IBM, Microsoft Azure, Google Cloud, or Amazon Web Services. After two years of observation, in 2021, we proceed with payment to the service provider and enter into an agreement to protect our investments in ICT implementations. The chosen third party service provider for cloud computing is IBM; however, the service Provider has reserve the right to select and replace third-party vendors from the aforementioned options based on factors such as technical compatibility, cost, and quality. This flexibility is particularly important in rapidly evolving software technology markets, including artificial intelligence, cloud computing and in cyber security.
5. In 2021, it was observed that the college's data, which is submitted to the service provider when processed in the cloud, functioned effectively and performed as well as on-premises infrastructure. Furthermore, the cloud-based solution offered enhanced security, robust disaster recovery capabilities, and improved elasticity and performance. Taking these factors into account, the decision to enter into the agreement was made.
6. Data processing services to be continued by the service provider and all the data submitted shall be made available through cloud.
7. The Service Provider shall implement reasonable steps to meet these obligations to be continued right from installation to provision the customized ERP and on the Cloud Based Infrastructure.
8. The Service Provider shall Administer and maintain the cloud infrastructure is essential to ensure the security of live data for the institution and to enable the uninterrupted 24x7 functioning of its apps.
